Elenco delle Pubblicazioni di Maurizio Gasperini

(aggiornato al 30.09.2023)

- **2023**

[244] P. Conzinu, G. Fanizza, M. Gasperini, E. Pavone, L. Tedesco and G. Veneziano,
From the string vacuum to FLRW or de Sitter via α' corrections,
JCAP **12**, 019 (2023).
https://doi.org/10.1088/1475-7516/2023/12/019

[243] G. Fanizza, M. Gasperini and G. Marozzi,
A Simple, Exact Formulation of Number Counts in the Geodesic-Light-Cone Gauge,
Universe **9**, 327 (2023).
https://doi.org/10.3390/universe9070327
available at: https://www.mdpi.com/2218-1997/9/7/327

[242] M. Gasperini and G. Veneziano,
Non-singular pre-big bang scenarios from all-order α' corrections,
JHEP **07**, 144 (2023).
https://doi.org/10.1007/JHEP07(2023)144

[241] M. Gasperini,
Teoria Gravitazionale e Applicazioni Cosmologiche: Possibili Sviluppi Futuri,
Ithaca: Viaggio nella Scienza **XXI**, 47 (2023).
http://ithaca.unisalento.it/nr-21_2023/index.html
e-ISSN: 2282-8079

[240] M. Gasperini,
Gravity at finite temperature, equivalence principle, and local Lorentz invariance,
in *"Breakdown of the Einstein's Equivalence Principle"*, ed. by A. G. Lebed
(World Scientific, 2023), Cap. 3, p. 77. ISBN: 978-981-125-358-4
https://doi.org/10.1142/9789811253591_fmatter

- **2022**

[239] M. Gasperini,
From pre- to post-big bang: an (almost) self-dual cosmological history,
in *"The future of mathematical cosmology"'*, ed. by S. Cotsakis and A. Yefremov,
Phil.Trans. Roy. Soc. **A**, 380, 2230 (2022).
https://doi.org/10.1098/rsta.2021.0179

- **2021**

[238] G. Fanizza, M. Gasperini, E. Pavone and L. Tedesco,
Linearized propagation equations for metric fluctuations
in a general (non-vacuum) background geometry,
JCAP **07**, 021 (2021).
https://doi.org/10.1088/1475-7516/2021/07/021

[237] M. Gasperini,
Quantum string cosmology,
Universe **7**, 14 (2021).
https://doi.org/10.3390/universe7010014
available at: https://www.mdpi.com/2218-1997/7/1/14

- **2020**

[236] G. Fanizza, G. Franchini, M. Gasperini and L. Tedesco,
Comparing the luminosity distance for gravitational waves and electromagnetic signals in a simple model of quadratic gravity,
Gen. Rel. Grav. **52**, 111 (2020).
https://doi.org/10.1007/s10714-020-02760-5

[235] P. Conzinu, M. Gasperini and G. Marozzi,
Primordial black holes from pre-big bang inflation,
JCAP **08**, 031 (2020).
https://doi.org/10.1088/1475-7516/2020/08/031

[234] G. Fanizza, M. Gasperini, G. Marozzi, and G. Veneziano,
Generalized covariant prescriptions for averaging cosmological observables,
JCAP **02**, 017 (2020).
https://doi.org/10.1088/1475-7516/2020/02/017

[233] M. Gasperini,
La teoria delle stringhe e la cosmologia moderna,
in Atti del Convegno *"Log@ritmi 2019 - La provocazione della Scienza"*,
(Liceo Salvemini, Bari, 28-30 Gennaio 2019), ISBN: 978-88-31293-07-5
(Paginaria Edizioni, Bari, 2020), p.53

- **2019**

[232] G. Fanizza, M. Gasperini, G. Marozzi, and G. Veneziano,
Observation angles, Fermi coordinates, and the Geodesic-Light-Cone gauge,
JCAP **01**, 004 (2019).
https://doi.org/10.1088/1475-7516/2019/01/004

- **2018**

[231] J. Quintin, R. H. Brandenberger, M. Gasperini and G. Veneziano,
String hole gas in α'-corrected dilaton gravity,
Phys. Rev. **D 98**, 103519 (2018).
https://doi.org/10.1103/PhysRevD.98.103519

[230] M. Gasperini,
Le onde gravitazionali nella fisica moderna,
Ithaca: Viaggio nella Scienza **XII**, 5 (2018).
http://ithaca.unisalento.it/
e-ISSN: 2282-8079

- **2017**

[229] M. Gasperini,
On the initial regime of pre-big bang cosmology,
JCAP **09**, 001 (2017).
https://doi.org/10.1088/1475-7516/2017/09/001

[228] M. Gasperini,
Constraints on the production of primordial magnetic seeds in pre-big bang cosmology,
JCAP **06**, 017 (2017).
http://dx.doi.org/10.1088/1475-7516/2017/06/017

[227] M. Gasperini,
"Theory of Gravitational Interactions",
Second Edition, Collana UNITEXT for Physics, 373 pages,
ISBN: 978-3-319-49681-8, DOI 10.1007/978-3-319-49682-5
(Springer International, 2017).

- **2016**

[226] M. Gasperini,
Observable gravitational waves in pre-big bang cosmology: an update,
JCAP **12**, 010 (2016).
http://dx.doi.org/10.1088/1475-7516/2016/12/010

[225] M. Gasperini,
Do alien particles exist, and can they be detected?
Int. J. Mod. Phys. **D 25**, 1630030 (2016)
doi: 10.1142/S0218271816300305
http://dx.doi.org/10.1142/S0218271816300305

[224] G. Fanizza, M. Gasperini, G. Marozzi, and G. Veneziano,
Time of flight of ultra-relativistic particles in a realistic Universe:
a viable tool for fundamental physics?,
Phys. Lett. **B 757**, 505 (2016).

- **2015**

[223] M. Gasperini and G. Veneziano,
String theory and pre-big bang cosmology,
Il Nuovo Cimento **C 38**, 160 (2015).

[222] M. Gasperini,
Cosmology and short-distance gravity,
Int. J. Mod. Phys. **D 24**, 1544003 (2015).

[221] G. Fanizza, M. Gasperini, G. Marozzi, and G. Veneziano,
A new approach to the propagation of light-like signals
in perturbed cosmological backgrounds,
JCAP **08**, 020 (2015).

[220] M. Gasperini,
"Relatività Generale e Teoria della Gravitazione"
Second Edition, Collana UNITEXT for Physics, 362 pages,
ISBN: 978-88-470-5689-3, DOI: 10.1007/978-88-470-5690-9
(Springer-Verlag Italia 2015).

- **2014**

[219] M. Gasperini,
The twin paradox in the presence of gravity,
Mod. Phys. Lett. **A 29**, 1450149 (2014).

[218] M. Gasperini,
"Gravity, Strings and Particles: A Journey Into the Unknown",
ISBN: 978-3-319-00598-0, DOI: 10.1007/978-3-319-00599-7
125 pages (Springer International Publishing, Switzerland, 2014).

[217] M. Gasperini,
String theory and primordial cosmology,
in *"Springer Handbook of Spacetime"*, ed. by E. Ashtekar and V. Petkov
ISBN 978-3-642-41991-1, DOI: 10.1007/978-3-642-41992-8-35
(Springer-Verlag, Berlin Heidelberg, 2014), Cap. 35, p. 743.

[216] M. Gasperini,
"Gravità, stringhe e particelle: una escursione nell'ignoto",
Collana "I BLU" (popular book), 162 pages, Italian Edition
ISBN: 978-88-470-5534-6, DOI: 10.1007/978-88-470-5535-3
(Springer-Verlag Italia, Milano, 2014).

- **2013**

[215] G. Fanizza, M. Gasperini, G. Marozzi, and G. Veneziano,
An exact Jacobi map in the geodesic light-cone gauge,
JCAP **11**, 019 (2013).

[214] I. Ben-Dayan, M. Gasperini, G. Marozzi, F. Nugier and G. Veneziano,
Average and dispersion of the luminosity-redshift relation in the concordance model,
JCAP **06**, 002 (2013).

[213] L. Cosmai, G. Fanizza, M. Gasperini and L. Tedesco ,
Discriminating different models of luminosity-redshift distribution,
Class. Quantum Grav. **30**, 095011 (2013).

[212] I. Ben-Dayan, M. Gasperini, G. Marozzi, F. Nugier and G. Veneziano,
Do stochastic inhomogeneities affect dark-energy precision measurements?
Phys. Rev. Lett. **110**, 021301 (2013).

[211] M. Gasperini,
"Theory of Gravitational Interactions",
Undergraduate Lecture Notes in Physics, 322 pages,
ISBN: 978-88-470-2690-2, DOI: 10.1007/978-88-470-2691-9
(Springer-Verlag, Berlin Heidelberg, 2013).

- **2012**

[210] I. Ben-Dayan, M. Gasperini, G. Marozzi, F. Nugier and G. Veneziano,
Backreaction on the luminosity-redshift relation
from gauge invariant light-cone averaging,
JCAP **04**, 036 (2012).

[209] M. Gasperini,
"Lezioni di Cosmologia Teorica",
Collana UNITEXT di Fisica e Astronomia, 250 pages,
ISBN: 978-88-470-2483-0, DOI: 10.1007/978-88-470-2484-7
(Springer-Verlag, Milano, 2012).

- **2011**

[208] M. Gasperini, G. Marozzi, F. Nugier and G. Veneziano,
Light-cone averaging in cosmology: formalism and applications,
JCAP **07**, 008 (2011).

- **2010**

[207] A. Barone, M. Gasperini and G. Rotoli,
Macroscopic Quantum Tunneling and the "cosmic" Josephson effect,
Phys. Rev. **D 82**, 087301 (2010).

[206] M. Gasperini,
"Manuale di Relatività Ristretta",
Collana UNITEXT di Fisica e Astronomia, 140 pages,
ISBN: 978-88-470-1604-0
(Springer-Verlag, Milano, 2010).

[205] M. Gasperini,
"Lezioni di Relatività Generale e Teoria della Gravitazione",
Collana UNITEXT di Fisica e Astronomia, 290 pages,
ISBN: 978-88-470-1420-6
(Springer-Verlag, Milano, 2010).

[204] M. Gasperini, G. Marozzi and G. Veneziano,
A covariant and gauge invariant formulation of the cosmological "backreaction",
JCAP **02**, 009 (2010).

- **2009**

[203] M. Gasperini, G. Marozzi and G. Veneziano,
Gauge invariant averages for the cosmological backreaction,
JCAP **03**, 011 (2009).

- **2008**

[202] M. Gasperini,
Why supersymmetry should be restored at the Tev Scale,
Int. J. Mod. Phys. **D 17**, 2521 (2008).

[201] M. Gasperini,
Higher-dimensional perturbations of the vacuum energy density,
JHEP **06**, 009 (2008).

[200] L. Amendola, M. Gasperini and C. Ungarelli,
Non-local dilaton coupling to dark matter:
cosmic acceleration and pressure backreaction,
Phys. Rev. **D 77**, 123526 (2008).

[199] M. Gasperini,
"The Universe before the Big Bang: cosmology and string theory",
Astronomers' Universe Series, 208 pages,
ISBN-13: 978-3540744191
(Springer-Verlag, Berlin Heidelberg, 2008).

[198] M. Gasperini,
Dilaton cosmology and phenomenology,
Lect. Notes Phys. **737**, 787 (2008).

[197] M. Gasperini and J. Maharana,
Gabriele Veneziano: a concise scientific biography and an interview,
Lect. Notes Phys. **737**, 3 (2008).

[196] M. Gasperini and J. Maharana (Eds.),
"String theory and fundamental interactions"
Springer Series Lecture Notes in Physics, Vol. 737,
974 pages, ISBN-13: 978-3-540-74232-6
(Springer-Verlag, Berlin Heidelberg, 2008).

- **2007**

[195] M. Gasperini,
"Elements of String Cosmology",
Cambridge monograph series in Theoretical and Mathematical Physics,
570 pages, ISBN-13: 978-0-521-86875-4
(Cambridge University Press, Cambridge UK, 2007).

- **2006**

[194] L. Amendola, M. Gasperini and F. Piazza,
SNLS data are consistent with acceleration at $z \approx 3$,
Phys. Rev. **D 74**, 127302 (2006).

[193] M. Gasperini,
Ricordando Eduardo Caianiello,
La Biblioteca dei 500, sito `web` di Ulisse (SISSA, Trieste, 1 December 2006),
`http://ulisse.sissa.it/biblioteca/saggio/2006/Ubib061201s001`

[192] M. Gasperini,
A new scale in the sky,
Int. J. Mod. Phys. **D 15**, 2147 (2006).

[191] M. Gasperini,
Primordial magnetic seeds from string cosmology,
Astron. Nachr. **327**, 399 (2006).

[190] M. Gasperini and S. Nicotri
Observable(?) cosmological signatures of superstrings
in pre-big bang models of inflation,
Phys. Lett. **B 633**, 155 (2006).

[189] M. Gasperini,
Phenomenology of the relic dilaton background,
in *"Recent developments in gravitational physics"*,
eds. I. Ciufolini, E.Coccia, M.Colpi, V.Gorini and R.Peron,
Institute of Physics Conference Series N.187
(Taylor & Francis, New York, London, 2006), p. 475.

- **2005**

[188] V. Bozza, M. Gasperini, M. Giovannini and G. Veneziano,
CMB anisotropies through axion decay in pre-big bang models,
in *Proc. of the "10th Marcel Grossmann Meeting"*,
eds. M. Novello, S. P. Bergliaffa and R. Ruffini,
(World Scientific, Hackensack, 2005), p. 1744.

[187] N. Bonasia and M. Gasperini,
Response of the common mode of interferometric detectors
to a stochastic background of massive scalar radiation,
Phys. Rev. **D 71**, 104020 (2005).

[186] M. Cavaglià, G. De Risi and M. Gasperini,
Relic gravitons on Kasner-like brane,
Phys. Lett. **B 610**, 9 (2005).

- **2004**

[185] M. Gasperini,
La cosmologia di stringa,
in *"Un arcobaleno di domande"*,
tratto dalla sito *Ulisse - Nella rete della scienza* (SISSA, Trieste),
a cura di F. Scarpa (Edizioni Dedalo, Bari 2004), p. 39.

[184] L. Amendola, M. Gasperini and F. Piazza,
Fitting Type Ia supernovae with coupled dark energy,
JCAP **09**, 014 (2004).

[183] M. Gasperini,
Towards a future singularity?,
Int. J. Mod. Phys. **D 13**, 2267 (2004).

[182] M. Gasperini, M. Giovannini and G. Veneziano,
Cosmological perturbations across a curvature bounce,
Nuc. Phys. **B 694**, 206 (2004).

[181] M. Gasperini,
Late-time effects of Planck scale cosmology:
dilatonic interpretation of the dark energy field,
in Proc. of the Int. Conf. on *"Thinking, Observing and Mining the Universe"*
eds. G. Miele and G. Longo (World Scientific, Singapore, 2004), p. 153.

[180] V. Bozza, M. Gasperini, M. Giovannini and G. Veneziano,
The axion as a curvaton in string cosmology models,
in in Proc. of the Int. Conf. on *"Thinking, Observing and Mining the Universe"*
eds. G. Miele and G. Longo (World Scientific, Singapore, 2004), p. 49.

- **2003**

[179] M. Gasperini,
Superstring cosmology,
in *"Concise Encyclopedia on Supersymmetry"*,
eds. J. Bagger, S. Duplij and W. Siegel (Kluwer Acad. Pub., Dordrecht, 2003), p. 437.

[178] M. Gasperini, M. Giovannini and G. Veneziano,
Perturbations in a non-singular bouncing Universe,
Phys. Lett. **B 569**, 113 (2003).

[177] V. Bozza, M. Gasperini, M. Giovannini and G. Veneziano,
Constraints on pre-big bang parameter space from CMBR anisotropies,
Phys. Rev. **D 67**, 063514 (2003).

[176] L. Amendola, M. Gasperini, D. Tocchini-Valentini and C. Ungarelli,
Early acceleration and adiabatic matter perturbations
in a class of dilatonic dark-energy models,
Phys. Rev. **D 67**, 043512 (2003).

[175] M. Gasperini and G. Veneziano,
The pre-big bang scenario in string cosmology,
Phys. Rep. **373**, 1 (2003).

- **2002**

[174] M. Gasperini,
L'universo prima del big bang,
in *Realtà Nuova* (Rivista dell'Istituto Culturale Rotariano),
n. 5 (Ottobre 2002), p. 55.

[173] M. Gasperini,
Production and detection of relic dilatons in string cosmology,
in *Proc. of "The Ninth Marcel Grossmann Meeting"*
(University of Rome "La Sapienza", July 2000),
eds. V. G. Gurzadyan, R. Jantzen and R. Ruffini
(World Scientific, Singapore, 2002), p. 1245.

[172] M. Gasperini,
L'universo prima del big bang. Cosmologia e teoria delle stringhe,
200 pages, ISBN 88-7423-052-X (Franco Muzzio, Editori Riuniti, Roma, Settembre 2002).

[171] V. Bozza, M. Gasperini, M. Giovannini and G. Veneziano,
Assisting pre-big bang phenomenology through short-lived axions
Phys. Lett. **B 543**, 14 (2002).

[170] E. Coccia, M. Gasperini and C. Ungarelli,
Sensitivity of spherical gravitational-wave detectors
to a stochastic background of nonrelativistic scalar radiation,
Phys. Rev. **D 65**, 067101 (2002).

[169] M. Gasperini, F. Piazza and G. Veneziano,
Quintessence as a runaway dilaton,
Phys. Rev. **D 65**, 023508 (2002).

- **2001**

[168] V. Bozza, M. Gasperini and G. Veneziano,
Localization of scalar fluctuations in a dilatonic brane-world scenario,
Nucl. Phys. **B 619**, 191 (2001).

[167] G. De Risi and M. Gasperini,
Low-energy graceful exit in anisotropic string cosmology backgrounds,
Phys. Lett. **B 521**, 335 (2001).

Gen. Rel. Grav. **10**, 825 (1979).

[5] V. De Sabbata and M. Gasperini,
Non-linear electromagnetic effects induced in vacuum
by the gravitational interaction,
Lett. Nuovo Cimento **24**, 520 (1979).

[4] V. De Sabbata and M. Gasperini,
Strong gravity contributions to the electromagnetic field
of an elementary particle,
Lett. Nuovo Cimento **24**, 215 (1979).

- **1978**

[3] V. De Sabbata and M. Gasperini,
External torsion and the electromagnetic force,
Lett. Nuovo Cimento **23**, 657 (1978).

[2] V. De Sabbata and M. Gasperini,
Is weak interaction a Cartan force between the elementary particles?
Lett. Nuovo Cimento **21**, 328 (1978).

[1] M. Gasperini,
Gravitation and the Einstein-Sciama force,
Lett. Nuovo Cimento **21**, 285 (1978).
