ELENCO DELLE PUBBLICAZIONI
di
Leonardo Angelini

Lavori pubblicati su riviste

1. *An extrapolation method for the perturbative expansion of the S-Matrix. Application to high-energy hadronic collisions.*
   (L. Angelini, L. Nitti, M. Pellicoro, M. Villani)
   Il Nuovo Cimento 41A, 250 (1977).

2. *Final-state enhancement factor in $Z^0, W^\pm$ production due to quark confinement.*
   (L. Angelini, P. Castorina, G. Nardulli)
   Lettere al Nuovo Cimento 30A, 379 (1981).

3. *QGD analysis of K^0 production in electron-positron annihilation.*
   (L. Angelini, P. Castorina)
   Lettere al Nuovo Cimento 30A, 451 (1981).

4. *The structure of final states in low p_t proton-proton interactions at high energies.*
   (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata, G. Valenti)
   Physics Letters 107B, 446 (1981).

5. *Is the Gluon hiding under the third jet?*
   (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata, G. Valenti)
   Physics Letters 119B, 456 (1982).

6. *Fire-String formation at high energies: proton-proton versus proton-antiproton.*
   (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata, G. Valenti)
   Nuclear Physics B216, 83 (1983).

7. *Fire-String decay at high energies: baryon-antibaryon production in electron-positron annihilation.*
   (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata, G. Valenti)
   Physics Letters 123B, 246 (1983).

8. *Fire-String decay in high-energy electron-positron annihilation: one particle distributions and scaling violations.*
   (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata, G. Valenti)
   Physical Review D27, 1668 (1983).

9. *Fire String theory of electron-positron annihilation.*
    (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata, G. Valenti)
    La Rivista del Nuovo Cimento vol.6, n.3 (1983).

10. *Can we understand the NA5 effect?*
    (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata)
    Physics Letters 141B, 255 (1984).

11. *A Monte Carlo program for generating hadronic final states in electron-positron annihilations.*
    (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata, G. Valenti)
    Computer Physics Communications 34 371 (1985).

12. *Bilocal Mean Field equations for extended mesons and quark confinement.*
    (L. Angelini, L. Nitti, M. Pellicoro)
    Il Nuovo Cimento 86A, 101 (1985).

13. *A realistic model of the semileptonic decays of Beauty.*
    (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata)
    Physics Letters 172B, 447 (1986).

14. *Nailing down the KM-matrix and the top quark mass.*
    (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata)
    Physics Letters 195B 469 (1987) e **Physics Letters 202B** 620 (1988).

15. *Analysis of hadron production in deep inelastic scattering through the Fire-String model.*
    (E. Ferrari, G. Violini, G. Preparata, L. Angelini, L. Nitti, M. Pellicoro)
    Proceedings of the Intern. Europhysics Conf. on High Energy Physics.
    Edited by Olga Botner. Uppsala University Press (1987) 521.

16. *Inclusive weak decays of charmed mesons.*
    (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata)
    Il Nuovo Cimento 99A, 45 (1988).

17. *Variational approach to lattice quantum mechanics*
    (L. Angelini, M. Pellicoro, M. Villani)
    Physical Review D 38, 1183 (1988).

18. *Analysis of hadron production in deep inelastic muon-proton collisions through the Fire-String model*
    (E. Ferrari, G. Violini, G. Preparata, L. Angelini, L. Nitti, M. Pellicoro)
    Zeitschrift fur Physik C 41, 39 (1988).

19. *High p_t physics in pp and $\bar{p}p$ scattering*
    (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata)
    Physics Letters 211B, 472 (1988).

20. *Low and high p_t physics in the Fire-String model*
    Proceedings of the 1988 Perugia Workshop on Multiparticle Production.
    Editors R. Hwa, G. Pancheri, Y. Srivastava. Singapore 339 (1989).

21. *Description of hadron final states in deep inelastic muon-proton collisions through the Fire-String model.*
    (E. Ferrari, G. Violini, G. Preparata, L. Angelini, L. Nitti, M. Pellicoro)
    Proceedings of the 1988 Perugia Workshop on Multiparticle Production.
    Editors R. Hwa, G. Pancheri, Y. Srivastava. Singapore 368 (1989).

22. *Analysis of hadron production in deep inelastic muon-proton collisions through the Fire-String model (part II).*
    (E. Ferrari, G. Violini, G. Preparata, L. Angelini, L. Nitti, M. Pellicoro)
    Zeitschrift fur Physik C 44, 599 (1989).

23. *Some aspects of the structure of pp ($\bar{p}p$) scattering at high energy.*
    (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata)
    Physical Review D 41, 2081 (1990).

24. *A Monte Carlo program for generating hadronic final states.*
    (L. Angelini, L. Nitti, M. Pellicoro, G. Preparata, G. Valenti)
    Computer Physics Communications 67, 293 (1991).

25. *Constrained variational approach to second order phase transitions. Applications to a two layer Ising model.*
    (L. Angelini, D. Caroppo, M. Pellicoro, M. Villani)
    Journal of Physics A25, 5423 (1992).

26. *The CLE condition and the correlation length on the square lattice Ising model with first and second neighbour interactions.*
    (L. Angelini, M. Pellicoro, I. Sardella, M. Villani)
    Journal of Physics A26, 5207 (1993).

27. *The two-layer Ising film correlation length and critical curve by CLE and CVM methods.*
    (L. Angelini, D. Caroppo, M. Pellicoro, M. Villani)
    Physica A219, 447 (1995).

28. *Spontaneous breaking of layer symmetry in an Ising film and universality.*
    (L. Angelini, D. Caroppo, M. Pellicoro, M. Villani)
    Physica A237, 320 (1997).

29. *Variational method and duality in the 2D Potts model.*
    (L. Angelini, M. Pellicoro, I. Sardella, M. Villani)
    Journal of Physics A30, 7677 (1997)

30. *Phase ordering in chaotic map lattices with conserved dynamics.*
(L. Angelini, M. Pellicoro, S. Stramaglia)
Physical Review E 60, R5021 (1999).

31. *Clustering data by inhomogeneous chaotic map lattices.*
(L. Angelini, F. De Carlo, C. Marangi, M. Pellicoro, S. Stramaglia)
Physical Review Letters 85, 554 (2000).

32. *Clustering by inhomogeneous chaotic maps in landmine detection.*
(C. Marangi, L. Angelini, F. De Carlo, G. Nardulli, M. Pellicoro, S. Stra-
maglia)
Proceedings of the VI Conference on Image and Signal Processing for Re-
mote Sensing, **SPIE Proceedings** vol. 4170 122 (2001).

33. *Phase ordering in chaotic map lattices with additive noise.*
(L. Angelini, M. Pellicoro, S. Stramaglia)
Physics Letters A 285, 293-300 (2001).

34. *Cost functions for pairwise data clustering.*
(L. Angelini, L. Nitti, M. Pellicoro, S. Stramaglia)
Physics Letters A 285, 279-285 (2001).

35. *Chaotic neural networks clustering: an application to antipersonnel mines
detection by dynamical IR imaging.*
(L. Angelini, F. De Carlo, M. Mannarelli, C. Marangi, G. Nardulli, M.
Pellicoro, G. Satalino, S. Stramaglia)
Optical Engineering 40, 2878-2884 (2001).

36. *Clustering mtDNA sequences for human evolution studies.*
(C. Marangi, L. Angelini, M. Mannarelli, M. Pellicoro, S. Stramaglia, M.
Attimonelli, M. De Robertis, L. Nitti, G. Pesole, C. Saccone and M. Tom-
maseo)
in **Modelling Biomedical Signals,** ed. G. Nardulli and S. Stramaglia,
World Scientific, London (2002).

37. *Jet analysis by Deterministic Annealing.*
(L. Angelini, P. de Felice, M. Maggi, G. Nardulli, L. Nitti, M. Pellicoro, S.
Stramaglia)
Physics Letters B 545, 315-322 (2002).

38. *Antiferromagnetic effects in chaotic map lattices with a conservation law.*
(L. Angelini)
Physics Letters A 307, 41-49 (2003).

39. *Statistical Physics and the Clustering Problem.*
(S. Stramaglia, L. Angelini, C. Marangi, L. Nitti, and M. Pellicoro)

in **New Directions in Statistical Physics, Econophysics, Bioinformatics, and Pattern Recognition**, Wille Luc T. (Ed.), pp.253-272, Springer-Verlag, Berlin 2004.

40. *Phase shifts of synchronized oscillators and the systolic-diastolic blood pressure relation.*
(L. Angelini, G. Lattanzi, R. Maestri, D. Marinazzo, G. Nardulli, L. Nitti, M. Pellicoro, G. D. Pinna, and S. Stramaglia)
Phys. Rev. E 69, 061923 (2004).

41. *Steady-State Visual Evoked Potentials and Phase Synchronization in Migraine Patients*
(L. Angelini, M. De Tommaso, M. Guido, K. Hu, P. Ch. Ivanov, D. Marinazzo, G. Nardulli, L. Nitti, M. Pellicoro, C. Pierro and S. Stramaglia)
Physical Review Letters 93, 038103 (2004).

42. *Deterministic Annealing as a jet clustering algorithm in hadronic collisions.*
(L. Angelini, G. Nardulli, L. Nitti, M. Pellicoro, D. Perrino and S. Stramaglia)
Physics Letters B 601, 56-63 (2004).

43. *Visually evoked phase synchronization changes of alpha rhythm in migraine: Correlations and clinical features*
(M. De Tommaso, D. Marinazzo, M. Guido, G. Libro, S. Stramaglia, L. Nitti, G. Lattanzi, L. Angelini, M. Pellicoro)
International Journal of Psychophysiology 57, 203-210 (2005).

44. *Measuring randomness by leave-one-out prediction error. Analysis of EEG after painful stimulation*
(N. Ancona, L. Angelini, M. De Tommaso, D. Marinazzo, L. Nitti, M. Pellicoro, S. Stramaglia)
Physica A 365, 491-498 (2006).

45. *Kernel method for clustering based on optimal target vector*
(L. Angelini, D. Marinazzo, M. Pellicoro, S. Stramaglia)
Physics Letters A 357, 413-416 2006.

46. *Multiscale analysis of heart rate, blood pressure and respiration time series*
L. Angelini and R. Maestri and D. Marinazzo and L. Nitti and M. Pellicoro and G. D. Pinna and S. Stramaglia and S.A. Tupputi
Artificial Intelligence in Medicine 41, 237-250 2007.

47. *Identification of network modules by optimization of ratio association*
(L. Angelini, S. Boccaletti, D. Marinazzo, M. Pellicoro, S. Stramaglia)
Chaos 17, 023114 (2007).

48. *Natural clustering: the modularity approach*
    (L. Angelini, D. Marinazzo, M. Pellicoro, S. Stramaglia)
    Journal of Statistical Mechanics: theory and experiment, L08001
    (2007).

49. *Semi-supervised learning by search of optimal target vector*
    (L. Angelini, D. Marinazzo, M. Pellicoro, S. Stramaglia)
    Pattern Recognition Letters 29, 34-39 (2008).

50. *Meccanica Quantistica: problemi scelti*
    (L. Angelini)
    Springer-Verlag Italia, Milano (2008).
